

MILLCREEK GOVERNMENT STUDY PAC

5447 Bondy Drive

Erie, PA 16509

814/323-2486

On November 5, the following question will appear on the ballot of Millcreek voters:

Shall a government study commission of seven members be elected to study the existing form of government, to consider the advisability of an optional form of government and to recommend whether or not an optional form of government should be adopted?

WHAT IS A GOVERNMENT STUDY? Seven Millcreek resident volunteers spend a year studying the best practices, operations and expenditures of other large townships across the State to determine if Millcreek's current form of government meets the fast-changing requirements of a 21st century township, or if a different form of government is better suited to meet the needs and concerns of the citizens and provide high quality services in the most economical, efficient, and open manner.

Of the 25 most populous Second Class Pennsylvania Townships, none of them operate under the structure that Millcreek does and has since the 1800s when it was a small farming community. It is time to study why this is the case. It has been almost 13 years since the only study that was ever performed.

All the Commission meetings will be open to public participation. The Study Commission will publish the study results and hold public hearings to explain them. If the commission recommends a change, that would have to appear on the ballot. **THE FORM OF GOVERNMENT IN MILLCREEK TOWNSHIP CAN ONLY BE CHANGED BY THE MILLCREEK VOTERS.**

We must raise funds for publicity and mailing to educate Millcreek voters about the question and how such a study would benefit them. Your financial assistance with this effort would be greatly appreciated. If you can help, please fill out the enclosed form and mail it along with a check made payable to "Millcreek Government Study PAC".

Thank you!

Art Oligeri, Chairman

Bob Enas, Treasurer

Please mail this form and your check made payable to
